**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

Competition, this is about competition and fair business practices. Why would the FCC limit competition. This does not provide for better service. Even for those who praise capitalism, limiting competition hurts mostly the those who cannot afford the to be in the high price market.

As a senior citizen, fixed income, I use Sonic for phone and Internet. The price is reasonable. Service is great. Amazingly better than AT&T or Comcast provided in years past. If competition is limited, these companies will definitely not provide the lower economic groups with adequate service at a reasonable cost. AT&T and Comcast has proven this in th past by "bundling" unneeded services in packages.

Why would the FCC limit competition in this industry? Who is the FCC serving? Is this another hit taken by the public to serve "special interests"?

Please keep my digital connection to the world affordable.
